Got Drugs? National Take-Back Initiative, April 28

Filed under COMMUNITY SUPPORT, FAMILIES, FLEET AND THE FLEET MARINE FORCE (NO COMMENTS)

From the U.S. Department of Justice, Drug Enforcement Administration

The [Drug Enforcement Administration](#) (DEA) has scheduled another National Prescription Drug Take-Back Day which will take place on Saturday, April 28, 2012, from 10:00 a.m. to 2:00 p.m. This is a great opportunity for those who missed the previous events, or who have subsequently accumulated unwanted, unused prescription drugs, to safely dispose of those medications.

For collections sites near you check out the National Take Back Initiative Collection Site Search by clicking [here](#).

Check with your local Naval Hospital/Clinic Pharmacy for more information. You can also locate the closest Navy Medicine facility by clicking [here](#).

Americans that participated in the DEA's third National Prescription Drug Take-Back Day on October 29, 2011, turned in more than 377,086 pounds (188.5 tons) of unwanted or expired medications for safe and proper disposal at the 5,327 take-back sites that were available in all 50 states and U.S. territories. When the results of the three prior Take-Back Days are combined, the DEA, and its state, local, and tribal law-enforcement and community partners have removed 995,185 pounds (498.5 tons) of medication from circulation in the past 13 months.

"The amount of prescription drugs turned in by the American public during the past three Take-Back Day events speaks volumes about the need to develop a convenient way to rid homes of unwanted or expired prescription drugs," said DEA Administrator Michele M. Leonhart. "DEA remains hard at work to establish just such a drug disposal process, and will continue to offer take-back opportunities until the proper regulations are in place."

"With the continued support and hard work of our more than 3,945 state, local, and tribal law enforcement and community partners, these three events have dramatically reduced the risk of prescription drug diversion and abuse, and increased awareness of this critical public health issue," said Leonhart.

Navy Medicine Video

Navy Medicine is a global healthcare network of 63,000 Navy medical personnel around the world who provide high quality health care to more than one million eligible beneficiaries. Navy Medicine personnel deploy with Sailors and Marines worldwide, providing critical mission support aboard ship, in the air, under the sea and on the battlefield.
